

**I AM
JENNIE
STUART.**

I AM CHESTER CRUMP, MD. I am a board-certified family medicine doctor and one of the five physicians who staff JSMC's Convenient Care Clinic. Our doctors, nurses and technicians provide timely outpatient services to patients with illnesses and non-emergency injuries that need treatment when most family physician offices are closed. The Clinic focuses on sprains/strains, minor burns, cuts and acute illnesses such as influenza, strep throat, or conjunctivitis (pink eye), serving 11,000 patients per year. Together we are Jennie Stuart.
